Commissioner for Patents**Response to Restriction Requirement**

The reply was filed on 11/26/2007 with election of Group IX. However, the required elected species of a single compound for initial search purpose was not provided in the reply. A telephonic interview failed to resolve the issue. Applicant is required to provide the chemical structure of the elected species disclosed in the elected claims or specification, which read into the elected group for initial search purpose. Applicant also needs to explain how the elected species reads into the elected scope of invention. Since the above-mentioned reply appears to be bona fide, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. Since this application has been granted special status under the accelerated examination program, NO extensions of time under 37 CFR 1.136(a) will be permitted.
